A 3D architectural rendering of a modern interior space. The scene features a curved staircase with a gold railing on the left. In the foreground, there are two white armchairs and a small round table. The walls are white with decorative paneling, and a large abstract painting is displayed on the wall. A dark wood console table with several vases sits against the wall. The floor is made of light-colored, polished stone tiles. A semi-transparent dark grey box with the text "3D Designs" is overlaid on the left side of the image.

3D Designs

Since launching in 2007 NazArt has had its own touch in Design.

NazArt designs and manages all aspects of the project whether the design is virtual or interior. Our models of design emphasize the aspects of the project that can be most expertly created and managed by our team.

NazArt work on every aspect of the design as it is presented and prepared for, Villas, hotels, palaces, shops and, offices in different countries including UAE, Yemen, Egypt, and Europe.

Shopdrawings

NazArt provides its customers with a wide range of technical drawings too as part of its services as it essential for communicating ideas in industry and engineering To make the drawings easier to understand, NazArt uses familiar symbols, perspectives, units of measurement, notation systems, visual styles, and page layout. Together, such conventions constitute a visual language and help to ensure that the drawing is unambiguous and relatively easy to understand.

NazArt's first intention was to recreate a new generation of furniture based the great heritage of Yemen. From there the journey of furniture innovation led us to create a modern blend inspired from beautiful and rich Yemeni inscriptions, using different sources like wood, copper, glass and stainless steel

Furniture innovation

As a result, NazArt innovated a new form of artistic decoration which is considered to be the next generation in the history of modern furniture. Its surface is based on rhythmic linear patterns of scrolling and interlacing foliage, tendrils or plaid lines often combined with new elements.

Furniture innovation

This photo depict Yemeni's architecture, from which we draw our inspiration. We draw deeply from a strong and ancient heritage of colors, shapes, lines and patterns.

Construction Projects

Our Projects:

- Aden Hotel
- AlFurjan City
- Al Qasr Hotel
- Al Saleh Mosque

Al Qasr Hotel (Interior & Lighting)

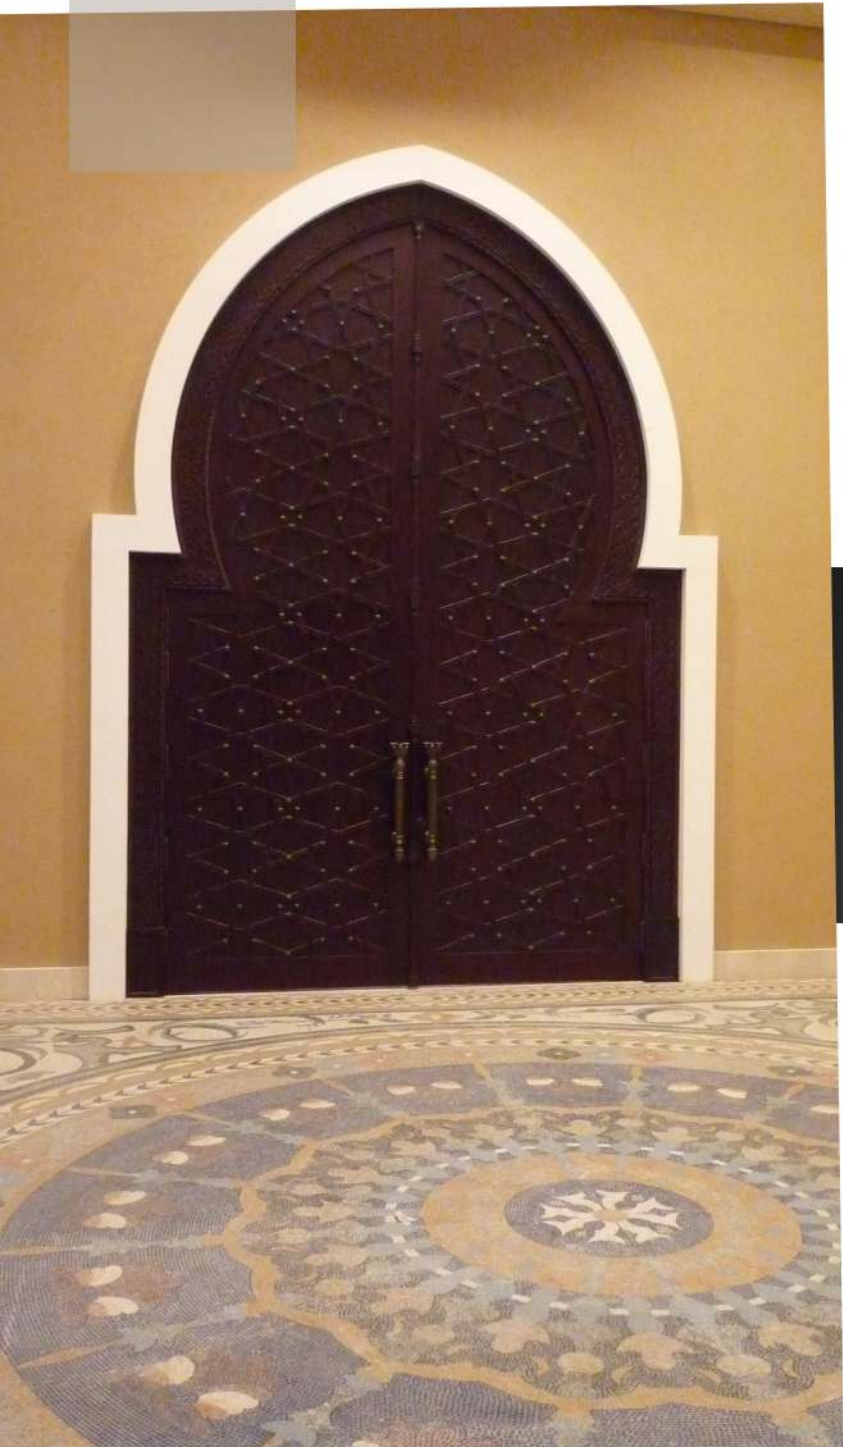

NazArt provides the best of our experts and experiences in the design and construction of our projects, to satisfy our customers, as one of our top priorities

Al Saleh Mosque (Lighting)

AlFurjan City (Villas & Lobby)

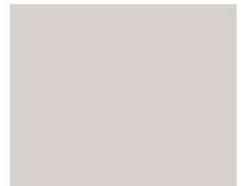

In UAE, NazArt has dealt with some of the biggest customers in the market such as Nakheel in Al Furjan City project, in addition to other EPC projects in UAE and Yemen.

Aden Hotel (EPC)

NazArt has a long history of building facilities that drive great value. From an exceptional level of quality and safety to ease of maintenance, we are firmly committed to helping our clients and partners achieve the short and long term strategic goals of every project we do.

Lights

When it comes to decorate a space, light is the most important item to make it alive, it creates a pure sensation for the atmosphere.

In its attempt to promote a new generation of lighting, and because it believes that the consumer taste changes and develops with time, NazArt transformed copper, glass, together with wood to get the following lighting categories appropriate for multiple spaces.
